

MOTOR TRADE TECH SYSTEMS

FLAGSHIP DIAGNOSTIC INTELLIGENCE

See the risk before you own it.

Fast, commercial vehicle insight at the point of decision.

● **Faster decisions**

Mobile, server-driven diagnostics designed for use at collection, appraisal, auction entry and pre-sale.

● **Deeper visibility**

OEM-level Body, Chassis, Network and Powertrain codes reveal issues that basic scanners may miss.

● **Commercial clarity**

Prioritised faults, repair context and cost insight help teams distinguish material risk from minor noise.

● **Built to connect**

A dynamically reconfigurable 16-pin interface, continuous cloud updates, APIs, SDKs and white-label options.
