

MOTOR TRADE TECH SYSTEMS

UK & EUROPEAN AUTOMOTIVE TECHNOLOGY

Three platforms. One partner.

Technology for the way vehicles are inspected, marketed, sold and transacted.

CarDr

Diagnostic intelligence that brings vehicle risk upstream, before commercial commitments are made.

Flitehouse

AI revenue enablement led by Seny and RevShift, connecting website conversations to phone and pipeline.

AuctionStreaming

An end-to-end auction ecosystem spanning management, live bidding, mobile workflows, condition reports, marketplaces and BI.

Motor Trade Tech Systems

Practical market development, demonstration and implementation support across the UK and Europe.
